Prom Watson's Weekly Art Journal.

Prom Watson's Weekly Art Journal.

Prom M. LEVETT has always ranked among our first dentists, and dentistry owes much to his scientific researches and inventions but his new invention of Suction Cellular Plate, in combination with a reiculated gold web and unber bees, for artificial teeth, comes nearer to perfection than any we have seen. It is so beht as hardly to be a weight in the hand, and at the same time is extremely, elastic and strong. By a series of air cells it is held immovable in the mouth, and is so small and compact that it does not interfere with speech or taste. It is in short the lightest, the most cleanly, and the firmeat denture that was ever put in the mouth, and consequently we commend it over all others.
